NEW MELLOW CO.

M E L L O W

Up to \$1,070,000 of Crowd Notes

New Mellow Co. ("Mellow", the "Company," "we," "us", or "our"), is offering up to \$1,070,000 worth of Crowd Notes of the Company (the "Securities"). Purchasers of Securities are sometimes referred to herein as "Purchasers". The minimum target offering is \$25,000 (the "Target Amount"). This Offering is being conducted on a best efforts basis and the Company must reach its Target Amount of \$25,000 by July 17, 2020. The Company is making concurrent offerings under both Regulation CF (the "Offering") and Regulation D (the "Combined Offerings"). Unless the Company raises at least the Target Amount of \$25,000 under the Regulation CF Offering and a total of \$500,000 under the Combined Offerings (the "Closing Amount") by July 17, 2020, no Securities will be sold in this Offering, investment commitments will be cancelled, and committed funds will be returned. Investors who completed the subscription process by July 10, 2020 will be permitted to increase their subscription amount at any time on or before July 17, 2020 upon Company consent. For the avoidance of doubt, no initial subscriptions from new investors will be accepted after July 17, 2020. The Company will accept oversubscriptions in excess of the Target Amount for the Offering up to \$1,070,000 (the "Maximum Amount") on a first come, first served basis. If the Company reaches its Closing Amount prior to July 17, 2020, the Company may conduct the first of multiple closings, provided that the Offering has been posted for 21 days and that investors who have committed funds will be provided notice five business days prior to the close. The minimum amount of Securities that can be purchased is \$1,000 per Purchaser (which may be waived by the Company, in its sole and absolute discretion). The offer made hereby is subject to modification, prior sale and withdrawal at any time.

A crowdfunding investment involves risk. You should not invest any funds in this Offering unless you can afford to lose your entire investment.

In making an investment decision, investors must rely on their own examination of the issuer and the terms of the Offering, including the merits and risks involved. These Securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.

The U.S. Securities and Exchange Commission (the "SEC") does not pass upon the merits of any Securities offered or the terms of the Offering, nor does it pass upon the accuracy or completeness of any Offering document or literature.

These Securities are offered under an exemption from registration; however, the SEC has not made an independent determination that these Securities are exempt from registration.

This disclosure document contains forward-looking statements and information relating to, among other things, the Company, its business plan and strategy, and its industry. These forward-looking statements are based on the beliefs of, assumptions made by, and information currently available to the Company's management. When used in this disclosure document and the Company Offering materials, the words "estimate", "project", "believe", "anticipate", "intend", "expect", and similar expressions are intended to identify forward-looking statements. These statements reflect management's current views with respect to

future events and are subject to risks and uncertainties that could cause the Company's action results to differ materially from those contained in the forward-looking statements. Investors are cautioned not to place undue reliance on these forward-looking statements to reflect events or circumstances after such state or to reflect the occurrence of unanticipated events.

The Company has certified that all of the following statements are TRUE for the Company in connection with this Offering:

- (1) Is organized under, and subject to, the laws of a State or territory of the United States or the District of Columbia;
- (2) Is not subject to the requirement to file reports pursuant to section 13 or section 15(d) of the Securities Exchange Act of 1934 (the "Exchange Act") (15 U.S.C. 78m or 78o(d));
- (3) Is not an investment company, as defined in section 3 of the Investment Company Act of 1940 (15 U.S.C. 80a-3), or excluded from the definition of investment company by section 3(b) or section 3(c) of that Act (15 U.S.C. 80a-3(b) or 80a-3(c));
- (4) Is not ineligible to offer or sell securities in reliance on section 4(a)(6) of the Securities Act of 1933 (the "1933 Act") (15 U.S.C. 77d(a)(6)) as a result of a disqualification as specified in § 227.503(a);
- (5) Has filed with the SEC and provided to investors, to the extent required, any ongoing annual reports required by law during the two years immediately preceding the filing of this Form C; and
- (6) Has a specific business plan, which is not to engage in a merger or acquisition with an unidentified company or companies.

Ongoing Reporting

The Company will file a report electronically with the SEC annually and post the report on its website no later than April 30, 2021.

Once posted, the annual report may be found on the Company's website at <https://www.cookmellow.com/investors>.

The Company must continue to comply with the ongoing reporting requirements until:

- (1) the Company is required to file reports under Section 13(a) or Section 15(d) of the Exchange Act;
- (2) the Company has filed at least three annual reports pursuant to Regulation CF and has total assets that do not exceed \$10,000,000;
- (3) the Company has filed at least one annual report pursuant to Regulation CF and has fewer than 300 holders of record;
- (4) the Company or another party repurchases all of the Securities issued in reliance on Section 4(a)(6) of the 1933 Act, including any payment in full of debt securities or any complete redemption of redeemable securities; or
- (5) the Company liquidates or dissolves its business in accordance with state law.

Neither the Company nor any of its predecessors (if any) previously failed to comply with the ongoing reporting requirement of Regulation CF.

About this Form C

You should rely only on the information contained in this Form C. We have not authorized anyone to provide you with information different from that contained in this Form C. We are offering to sell, and seeking offers to buy, the Securities only in jurisdictions where offers and sales are permitted. You should assume that the information contained in this Form C is accurate only as of the date of this Form C, regardless of the time of delivery of this Form C or of any sale of Securities. Our business, financial condition, results of operations, and prospects may have changed since that date.

Statements contained herein as to the content of any agreements or other documents are summaries and, therefore, are necessarily selective and incomplete and are qualified in their entirety by the actual agreements or other documents. The Company will provide the opportunity to ask questions of and receive answers from the Company's management concerning terms and conditions of the Offering, the Company or any other relevant matters, and any additional reasonable information to any prospective Purchaser prior to the consummation of the sale of the Securities.

This Form C does not purport to contain all of the information that may be required to evaluate the Offering and any recipient of this Form C should conduct independent analysis. The statements of the Company contained herein are based on information believed to be reliable. No warranty can be made as to the accuracy of such information or that circumstances have not changed since the date of this Form C. The Company does not expect to update or otherwise revise this Form C or other materials supplied herewith. The delivery of this Form C at any time does not imply that the information contained herein is correct as of any time subsequent to the date of this Form C. This Form C is submitted in connection with the Offering described herein and may not be reproduced or used for any other purpose.

SUMMARY

The Business

The following summary is qualified in its entirety by more detailed information that may appear elsewhere in this Form C and the Exhibits hereto. Each prospective Purchaser is urged to read this Form C and the Exhibits hereto in their entirety.

New Mellow Co. is a C-Corporation that was formed on May 24, 2018 in the State of Delaware. In October 2019, the Company entered into a transaction with a related party entity that the Company had loaned \$100,000 to, whereby the Company acquired the assets of Mellow, Inc. (“Old Mellow”), an entity that originally developed and sold the sous vide machine which is the basis for Mellow’s future operation. The related party entity, received the assets of Old Mellow by successfully bidding in an auction held on October 4, 2019. The acquired assets consisted of inventory, intellectual property technology, brand assets and all data owed, held, used or developed by Old Mellow

The Company is located at 4014 Chase ave #212 Miami Beach FL 33140.

The Company’s website is <https://www.cookmellow.com/>.

A description of our products as well as our services, process, and business plan can be found on the Company’s profile page on the SI Securities, LLC (“SeedInvest”) website under <https://www.seedinvest.com/mellow> and is attached as Exhibit C to the Form C of which this Offering Memorandum forms a part.

The Offering

Minimum amount of Crowd Note being offered	\$25,000
Maximum amount of Crowd Note	\$1,070,000

Minimum investment amount per investor	\$1,000
Offering deadline	July 17, 2020
Use of proceeds	See the description of the use of proceeds on page 11 and 12 hereof.
Voting Rights	See the description of the voting rights on pages 14 and 15.

RISK FACTORS

The SEC requires the Company to identify risks that are specific to its business and its financial condition. The Company is still subject to all the same risks that all companies in its business, and all companies in the economy, are exposed. These include risks relating to economic downturns, political and economic events, and technological developments (such as hacking and the ability to prevent hacking). Additionally, early-stage companies are inherently more risky than more developed companies. You should consider general risks as well as specific risks when deciding whether to invest.

Risks Related to the Company’s Business and Industry

The reviewing CPA has included a “going concern” note in the reviewed financials. Specifically, the financial statements note: “To date, the Company has not generated revenues from principal operations sufficient to cover operational costs. Losses will continue until such time that profitable operations can be achieved and the Company is reliant on financing to support operations. These factors, among others, raise substantial doubt about the ability of the Company to continue as a going concern within one year after the date that the financial statements are issued. During the next 12 months, the Company intends to fund its operations through the sale of equity and/or debt securities to angel investors and/or through Regulation Crowdfunding as well as the sale of existing inventory. If the Company cannot raise additional short-term capital, it may consume all of its cash reserved for operations. There are no assurances that management will be able to raise capital on terms acceptable to the Company. If the Company is unable to obtain sufficient amounts of additional capital, it may be required to reduce the scope of planned operations, which could harm the business, financial condition and operating results. The financial statements do not include any adjustments that might result from these uncertainties.

The development and commercialization of the Company’s products and services are highly competitive. It faces competition with respect to any products and services that it may seek to develop or commercialize in the future. Its competitors include major companies worldwide. The sous vide and kitchen appliance market is an emerging industry where new competitors are entering the market frequently. Many of the Company’s competitors have significantly greater financial, technical and human resources and may have superior expertise in research and development and marketing approved services and thus may be better equipped than the Company to develop and commercialize services. These competitors also compete with the Company in recruiting and retaining qualified personnel and acquiring technologies. Smaller or early stage companies may also prove to be significant competitors, particularly through collaborative arrangements with large and established companies. Accordingly, the Company’s competitors may commercialize products more rapidly or effectively than the Company is able to, which would adversely affect its competitive position, the likelihood that its services will achieve initial market acceptance and its ability to generate meaningful additional revenues from its products and services.

The Company’s expenses will significantly increase as they seek to execute their current business model. Although the Company estimates that it has enough runway until the end of year, they will be ramping up cash burn to promote revenue growth, further develop R&D, and fund other Company operations after the raise. Doing so could require significant effort and expense or may not be feasible.

The Company projects aggressive growth. If these assumptions are wrong and the projections regarding market penetration are too aggressive, then the financial forecast may overstate the Company's overall viability. In addition, the forward-looking statements are only predictions. The Company has based these forward-looking statements largely on its current expectations and projections about future events and financial trends that it believes may affect its business, financial condition and results of operations. Forward-looking statements involve known and unknown risks, uncertainties and other important factors that may cause actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements.

The Company has not prepared any audited financial statements. Therefore, investors have no audited financial information regarding the Company’s capitalization or assets or liabilities on which to make investment decisions. If investors feel the information provided is insufficient, then they should not invest in the Company.

Product safety and quality concerns, including concerns product recalls could negatively affect the Company’s business. The Company’s success depends in large part on its ability to maintain consumer confidence in the safety and quality of all its products. The Company has rigorous product safety and quality standards. However, if products taken to market are, or become, contaminated or adulterated, the Company may be required to conduct costly product recalls and may become subject to product liability claims and negative publicity, which would cause its business to suffer. In addition, regulatory actions, activities by nongovernmental organizations and public debate, and concerns about perceived negative safety and quality consequences of certain ingredients in its products may erode consumers’ confidence in the safety and quality issues, whether or not justified, and could result in additional governmental regulations concerning the marketing and labeling of the Company’s products, negative publicity, or actual or threatened legal actions, all of which could damage the reputation of the Company’s products and may reduce demand for the Company’s products.

A product recall or an adverse result in litigation could have an adverse effect on the Company's business, depending on the costs of the recall, the destruction of product inventory, competitive reaction, and

consumer attitudes. Even if a product liability claim is unsuccessful or without merit, the negative publicity surrounding such assertions could adversely affect their reputation and brand image. The Company also could be adversely affected if consumers in their principal markets lose confidence in the safety and quality of their products.

Not all of the founders or key employees are currently working full time for the Company. As a result, certain of the Company's employees, officers, directors or consultants may not devote all of their time to the business, and may from time to time serve as employees, officers, directors, and consultants of other companies. These other companies may have interests in conflict with the Company.

The Company does not have an employment contract in place with key employees. Employment agreements typically provide protections to the Company in the event of the employee's departure, specifically addressing who is entitled to any intellectual property created or developed by those employees in the course of their employment and covering topics such as non-competition and non-solicitation. As a result, if employees were to leave the Company, the Company might not have any ability to prevent their direct competition, or have any legal right to intellectual property created during their employment. There is no guarantee that an employment agreement will be entered into.

The Company has conducted related party transactions. In June 2019, the Company entered into a loan with a related party for \$87,500. The loan is due in 18 months and bears no interest. In addition, the Company was to issue 3150 shares of common stock. The Company valued the common stock at \$83.33 per share. The price was determined by using the price our founder used to sell a portion of their shares to a third party for. The Company then allocated the relative fair value of the debt and equity component and recorded a discount to the note payable of \$65,625. The discount is being amortized over the life of the note. During the year ended December 31, 2019, the company amortized \$21,875 of the discount. The balance of the loan as of December 31, 2019 is \$43,750. The remaining amortization will be recognized in 2020 through the date of loan maturity. In June 2019, the Company loaned a related party \$100,000. The note bore interest at 8% per annum. Interest only payments were to commence August 1, 2019 and continue until July 1, 2020, when the note matured and all principal and unpaid interest was due. As described in Note 1, in October 2019, the loan was extinguished through the receipt of asset of Old Mellow held by the related party. Interest during time the loan was outstanding was negligible.

The Company is overdue on its 2018 tax filing, which could subject it to penalties, fines, or interest charges, and which could indicate a failure to maintain adequate financial controls and safeguards. In particular, the Internal Revenue Service (IRS) could impose the Company with costly penalties and interest charges if the Company has filed its tax return late, or has not furnished certain information by the due date. In addition, even if the Company has filed an extension, if it underestimated its taxes, the IRS could penalize it. Potential tax consequences could adversely affect the Company's results of operations or financial condition.

The Company's Board does not keep meeting minutes from its board meetings. Though the Company is a Delaware Corporation and Delaware does not legally require its corporations to record and retain meeting minutes, the practice of keeping board minutes is critical to maintaining good corporate governance. Minutes of meetings provide a record of corporate actions, including director and officer appointments and board consents for issuances, and can be helpful in the event of an audit or lawsuit. These recordkeeping practices can also help to reduce the risk of potential liability due to failure to observe corporate formalities, and the failure to do so could negatively impact certain processes, including but not limited to the due diligence process with potential investors or acquirers. There is no guarantee that the Company's board will begin keeping board meeting minutes.

Risks Related to the Securities

The Crowd Notes will not be freely tradable until one year from the initial purchase date. Although the Crowd Notes may be tradable under federal securities law, state securities regulations may apply and each Purchaser should consult with his or her attorney. You should be aware of the long-term nature of this investment. There is not now, and likely will not be, a public market for the Crowd Notes. Because the Crowd Notes have not been registered under the 1933 Act or under the securities laws of any state or non-United States jurisdiction, the Crowd Notes have transfer restrictions under Rule 501 of Regulation CF. It is not currently contemplated that registration under the 1933 Act or other securities laws will be effected. Limitations on the transfer of the Crowd Notes may also adversely affect the price that you might be able to obtain for the Crowd Notes in a private sale. Purchasers should be aware of the long-term nature of their investment in the Company. Each Purchaser in this Offering will be required to represent that it is purchasing the Securities for its own account, for investment purposes, and not with a view to resale or distribute thereof.

We are selling convertible notes that will convert into shares or result in payment in limited circumstances. These notes only convert or result in payment in limited circumstances. If the Crowd Notes reach their maturity date, investors (by a decision of the Crowd Note holders holding a majority of the principal amount of the outstanding Crowd Notes) will either (a) receive payment equal to the total of their purchase price plus outstanding accrued interest, or (b) convert the Crowd Notes into shares of the Company's most senior class of preferred stock, and if no preferred stock has been issued, then shares of Company's common stock. If there is a merger, buyout or other corporate transaction that occurs before a qualified equity financing, investors will receive a payment of the greater of their purchase price plus accrued unpaid interest or the amount of preferred shares they would have been able to purchase using the valuation cap. If there is a qualified equity financing (an initial public offering registered under the 1933 Act or a financing using preferred shares), the notes will convert into a yet to-be-determined class of preferred stock. If the notes convert because they have reached their maturity date, the notes will convert based on a \$3,000,000 valuation cap. If the notes convert due to a qualified equity financing, the notes will convert at a discount of 20%, or based on a \$3,000,000 valuation cap. This means that investors would be rewarded for taking on early risk compared to later investors. Outside investors at the time of conversion, if any, might value the Company at an amount well below the \$3,000,000 valuation cap, so you should not view the \$3,000,000 as being an indication of the Company's value.

We have not assessed the tax implications of using the Crowd Note. The Crowd Note is a type of debt security. As such, there has been inconsistent treatment under state and federal tax law as to whether securities like the Crowd Note can be considered a debt of the Company, or the issuance of equity. Investors should consult their tax advisers.

The Crowd Note contains dispute resolution provisions which limit your ability to bring class action lawsuits or seek remedy on a class basis. By purchasing a Crowd Note this Offering, you agree to be bound by the dispute resolution provisions found in Section 6 of the Crowd Note. Those provisions apply to claims regarding this Offering, the Crowd Notes, and possibly the securities into which the Crowd Note are convertible. Under those provisions, disputes under the Crowd Note will be resolved in arbitration conducted in Delaware. Further, those provisions may limit your ability to bring class action lawsuits or similarly seek remedy on a class basis.

You may have limited rights. The Company may not have yet authorized preferred stock, and there is no way to know what voting rights those securities will have in the future. In addition, as an investor in the Regulation CF offering, you will be considered a Non-Major Investor (as defined below) under the terms of the notes offered, and therefore, you have more limited information rights.

You will be bound by an investor proxy agreement which limits your voting rights. As a result of purchasing the notes, all Non-Major Investors (including all investors investing under Regulation CF) will be bound by an investor proxy agreement. This agreement will limit your voting rights and at a later time may require you to convert your future preferred shares into common shares without your consent. Non-Major Investors will be bound by this agreement, unless Non-Major Investors holding a majority of the principal amount outstanding of the Crowd Notes (or majority of the shares of the preferred equity the notes will convert into) vote to terminate the agreement.

A majority of the Company is owned by a small number of owners. Prior to the Offering, the Company's current owners of 20% or more of the Company's outstanding voting securities beneficially own up to 97.56% of the Company's voting securities. Subject to any fiduciary duties owed to other owners or investors under Delaware law, these owners may be able to exercise significant influence over matters requiring owner approval, including the election of directors or managers and approval of significant Company transactions, and will have significant control over the Company's management and policies. Some of these persons may have interests that are different from yours. For example, these owners may support proposals and actions with which you may disagree. The concentration of ownership could delay or prevent a change in control of the Company or otherwise discourage a potential acquirer from attempting to obtain control of the Company, which in turn could reduce the price potential investors are willing to pay for the Company. In addition, these owners could use their voting influence to maintain the Company's existing management, delay or prevent changes in control of the Company, or support or reject other management and board proposals that are subject to owner approval.

BUSINESS

Description of the Business

Mellow, a smart sous-vide machine that will cook your meals without you being there to cook it. Our mission is to bring healthy and convenient eating options to the home. We have created Mellow to work as your sous-chef, one that cooks using a technique called sous-vide and lives on your countertop and in your smartphone.

We all have busy lives and when its time to eat we are often too exhausted to face the kitchen to prepare a meal. Mellow helps you craft chef-worthy meals by cooking ingredients to perfection, ready exactly when you want them. Mellow cooks using a technique called sous vide. This technique is commonly used in high-end restaurants and known for the incredible and consistent results, as well as one healthiest way to cook. Sous vide assures you that whatever you are cooking is going to be done to perfection, your ingredients will be cooked to your chosen doneness without undercooking or overcooking it. How is that done? It's as easy as dropping a bag with your ingredients in Mellow, grab your phone and say what you wanna cook, how you wanted it cooked and when you want it ready. That's it! Your meal will be cooked to perfection by the time you want it.

Now a little bit about us, Mellow was founded in 2013 by an international team led by passionate food lovers and innovators. Was part of TechStars San Francisco in 2013 and raised \$3,000,000 to successfully delivered their 1st Mellow units to the market in 2017.

With thousands of units in the market, we are now ready to grow and take out our product to the next level with Mellow Duo, because what can be better than having a perfectly cooked steak when you get home? It is having a perfectly cooked side dish to go with it!

Mellow Duo will be a modular machine, it will come with two water bath tank configurations. Two small tanks that will allow you to cook your main ingredient and side dish simultaneously. And a large one with a bigger capacity so you can cook up to fourteen portions, allowing you to cook for a crowd of simply cook bigger cuts of meat.

Our goal is to also grow as a meal delivery company allowing our users to buy packed and seasoned ingredients ready to be dropped inside of Mellow.

None

USE OF PROCEEDS

We will adjust roles and tasks based on the net proceeds of the Offering. We plan to use these proceeds as described below.

Offering Expenses

The use of proceeds for expenses related to the Combined Offering is as follows:

- If the Company raises the Target Amount, it will use 47.50% of the proceeds, or \$11,750, towards offering expenses;
- If the Company raises the Closing Amount, it will use 9.50% of the proceeds, or \$47,500, towards offering expenses; and
- If the Company raises the Maximum Amount, it will use 8.43% of the proceeds, or \$90,250, towards offering expenses

The proceeds remaining after meeting offering expenses will be used as follows:

Use of Proceeds	% if Target Amount Raised	% if Closing Amount Raised	% if Maximum Amount Raised
Product Development	40%	40%	35%
Industrialization	20%	20%	10%
Marketing and Sales	20%	20%	30%
Operations	10%	10%	20%
Mellow Meals Development	10%	10%	5%

The above table of the anticipated use of proceeds is not binding on the Company and is merely a description of its current intentions. We reserve the right to change the above use of proceeds if management believes it is in the best interests of the Company.

DIRECTORS, OFFICERS, AND MANAGERS

The directors, officers, and managers of the Company are listed below along with all positions and offices held at the Company and their principal occupations and employment responsibilities for the past three (3) years.

Name	Positions and Offices Held at the	Principal Occupation	and
------	-----------------------------------	----------------------	-----

	Company	Employment Responsibilities for the Last Three (3) Years
Vanessa Dominguez	CEO	<ul style="list-style-type: none"> • Mellow, CEO (June 2019-present): Principal Responsibilities: Day to Day operations of the company • Mellow, COO (May 2018 - June 2019) • Mellow, Industrial Designer (Jan 2014 - May 2018)

CAPITALIZATION AND OWNERSHIP

Capitalization

The Company has issued the following outstanding Securities:

Type of security	Amount outstanding	Voting rights	AntiDilution Rights	How this security may limit, dilute, or qualify the Securities issues pursuant to this Offering	Percentage ownership of the Company by the holders of such securities prior to the Offering	Other material terms
Common Shares	6150 shares	Yes	N/A	N/A	100%	N/A

The Company has the following debt outstanding:

Assumed Debt

The Company assumed a loan in October 2019 with a balance of \$8,939 that Old Mellow had with a digital store software provider. The loan is to be repaid through the sale of product through the digital store with 15% of each sale being withheld for repayment. During 2019, the Company repaid \$557 of this balance through sale of product. As of December 31, 2019, the balance outstanding was \$8,362. The loan is secured by virtually all of the Company's assets.

Related Party Note Payable

In June 2019, the Company entered into a loan with a related party for \$87,500. The loan is due in 18 months and bears no interest. In addition, the Company was to issue 3150 shares of common stock. The Company valued the common stock at \$83.33 per share. The price was determined by using the price our founder used to sell a portion of their shares to a third party for. The Company then allocated the relative fair value of the debt and equity component and recorded a discount to the note payable of \$65,625. The discount is being amortized over the life of the note. During the year ended December 31, 2019, the company amortized \$21,875 of the discount. The balance of the loan as of December 31, 2019 is \$43,750. The remaining amortization will be recognized in 2020 through the date of loan maturity.

Ownership

Below are the beneficial owners of 20% percent or more of the Company's outstanding voting equity securities, calculated on the basis of voting power, listed along with the amount they own.

Name	Number and type/class of security held	Percentage ownership
243 MEZZ GROUP, LLC	6000 Common shares	97.56%

FINANCIAL INFORMATION

Please see the financial information listed on the cover page of this Form C and attached hereto in addition to the following information. Financial statements are attached hereto as Exhibit B.

Operations

New Mellow Co. was formed on May 24, 2018 ("Inception") in the State of Delaware. The Company's headquarters are located in Miami Beach, Florida. Mellow develops and generates revenues from the sale of sous vide machines through the Company's website and online resellers. Sous vide machines are cool water cooking devices. During 2018, the Company was not operating.

To date, the Company has not generated revenues from principal operations sufficient to cover operational costs. Losses will continue until such time that profitable operations can be achieved and the Company is reliant on financing to support operations.

During the next 12 months, the Company intends to fund its operations through the sale of equity and/or debt securities to angel investors and/or through Regulation Crowdfunding as well as the sale of existing inventory. If the Company cannot raise additional short-term capital, it may consume all of its cash reserved for operations. There are no assurances that management will be able to raise capital on terms acceptable to the Company. If the Company is unable to obtain sufficient amounts of additional capital, it may be required to reduce the scope of planned operations, which could harm the business, financial condition and operating results. The financial statements do not include any adjustments that might result from these uncertainties.

Liquidity and Capital Resources

The proceeds from the Offering are essential to our operations. We plan to use the proceeds as set forth above under "Use of Proceeds", which is an indispensable element of our business strategy. The Offering proceeds will have a beneficial effect on our liquidity, as we have approximately \$10,000 in cash on hand as of 04/30/2020 which will be augmented by the Offering proceeds and used to execute our business strategy.

The Company currently does not have any additional outside sources of capital other than the proceeds from the Combined Offerings.

Capital Expenditures and Other Obligations

The Company does not intend to make any material capital expenditures in the future.

Trends and Uncertainties

After reviewing the above discussion of the steps the Company intends to take, potential Purchasers should consider whether achievement of each step within the estimated time frame is realistic in their judgment. Potential Purchasers should also assess the consequences to the Company of any delays in taking these steps and whether the Company will need additional financing to accomplish them.

The financial statements are an important part of this Form C and should be reviewed in their entirety. The financial statements of the Company are attached hereto as Exhibit B.

Valuation

As discussed in "Dilution" below, the valuation will determine the amount by which the investor's stake is diluted immediately upon investment. An early-stage company typically sells its shares (or grants options over its shares) to its founders and early employees at a very low cash cost, because they are, in effect, putting their "sweat equity" into the Company. When the Company seeks cash investments from outside investors, like you, the new investors typically pay a much larger sum for their shares than the founders or earlier investors.

There are several ways to value a company. None of them is perfect and all of them involve a certain amount of guesswork. The same method can produce a different valuation if used by a different person.

Liquidation Value - The amount for which the assets of the Company can be sold, minus the liabilities owed, e.g., the assets of a bakery include the cake mixers, ingredients, baking tins, etc. The liabilities of a bakery include the cost of rent or mortgage on the bakery. However, Liquidation Value does not reflect the potential value of a business, e.g., the value of the secret recipe. The value for most startups lies in their potential, as many early stage companies do not have many assets.

Book Value - This is based on analysis of the Company's financial statements, usually looking at the Company's balance sheet as prepared by its accountants. However, the balance sheet only looks at costs (i.e., what was paid for the asset), and does not consider whether the asset has increased in value over time. In addition, some intangible assets, such as patents, trademarks, or trade names, may be very valuable but may not be represented at their market value on the balance sheet.

Earnings Approach - This is based on what the investor will pay (the present value) for what the investor expects to obtain in the future (the future return), taking into account inflation, the lost opportunity to participate in other investments, and the risk of not receiving the return. However, predictions of the future are uncertain and valuation of future returns is a best guess.

Different methods of valuation produce a different answer as to what your investment is worth. For example, liquidation value and book value may produce a lower valuation than the earnings approach, which may be based on assumptions about the future.

Future investors (including people seeking to acquire the Company) may value the Company differently. They may use a different valuation method, or different assumptions about the Company's business and its market. Different valuations may mean that the value assigned to your investment changes and may cause the value of the Company to decrease.

Previous Offerings of Securities

We have made the following issuances of securities within the last three years: None.

THE OFFERING AND THE SECURITIES

The Securities Offered in this Offering

The following description is a brief summary of the material terms of the Securities being offered and is qualified in its entirety by the terms contained in the Crowd Notes.

The Crowd Notes sold in this Offering will convert in the following circumstances:

- If a "corporate transaction" (such as the sale of the Company) occurs prior to a "qualified equity financing" (which is a preferred stock financing of at least \$1,000,000).
- Once a "qualified equity financing" occurs, the notes thereafter will automatically convert into the shares of preferred stock sold in the qualified equity financing.
- If the maturity date is reached, the note holders will have the option, by decision of the majority outstanding note holders, to convert into the Company's most senior class of preferred stock, and if no preferred stock has been issued, then shares of the Company's common stock.

The price at which the Crowd Notes sold in this Offering will convert will be:

- At a discount of 20% to the price in the qualified equity financing, subject to a \$3,000,000 valuation cap, if the conversion takes place after the qualified equity financing;
- If conversion takes place prior to a qualified equity financing due to a corporate transaction, the greater of the outstanding principal of the Crowd Notes plus accrued unpaid interest, or the amount of stock the Crowd Notes would convert into under the valuation cap; or
- If conversion takes place prior to a qualified equity financing because the maturity date has been reached, subject to a \$3,000,000 valuation cap.

Until the earlier of the qualified equity financing or the corporate transaction, the Crowd Notes accrue an annual interest rate of 5%, compounded quarterly.

The securities into which the Crowd Notes in this Offering will convert will have more limited voting and information rights than those to be issued to Major Investors on conversion.

Our Target Amount for this Offering to investors under Regulation Crowdfunding is \$25,000.

Additionally, we have set a minimum Closing Amount of \$500,000 between our Combined Offerings under Regulation Crowdfunding and Regulation D, which we will need to meet before the Offering may close.

The minimum investment in this Offering is \$1,000. SeedInvest Auto Invest participants have a lower investment minimum in this offering of \$200. Investments of \$20,000 or greater will only be accepted through the Regulation D offering.

All Non-Major Investors of Crowd Notes will be bound by an investor proxy agreement. This agreement will limit your voting rights and at a later time may require you to convert your future preferred shares into common shares without your consent. Non-Major Investors will be bound by this agreement, unless Non-Major Investors holding a majority of the principal amount outstanding of the Crowd Notes (or majority of the shares of the preferred equity the notes will convert into) held by Non-Major Investors vote to terminate the agreement.

Securities Sold Pursuant to Regulation D

The Company is selling securities in a concurrent offering to accredited investors under Rule 506(c) under the 1933 Act at the same time as this Offering under Regulation Crowdfunding (together, the "Combined Offerings").

The Crowd Notes in the Regulation D offering convert under similar terms to the Crowd Notes in this offering. However, investors who invest \$50,000 or greater will be considered "Major Investors" under the Crowd Note. All other investors will be considered "non-Major Investors." Major Investors will be entitled to greater information rights than Non-Major Investors in the Combined Offerings. In the future, Major Investors may also be entitled to greater voting rights than their non-major counterparts.

Dilution

Even once the Crowd Note converts into preferred or common equity securities, as applicable, the investor's stake in the Company could be diluted due to the Company issuing additional shares. In other words, when the Company issues more shares (or additional equity interests), the percentage of the Company that you own will go down, even though the value of the Company may go up. You will own a smaller piece of a larger company. This increase in number of shares outstanding could result from a stock offering (such as an initial public offering, another crowdfunding round, a venture capital round or angel investment), employees exercising stock options, or by conversion of certain instruments (e.g. convertible bonds, preferred shares or warrants) into stock.

If a company decides to issue more shares, an investor could experience value dilution, with each share being worth less than before, and control dilution, with the total percentage an investor owns being less than before. There may also be earnings dilution, with a reduction in the amount earned per share (though this typically occurs only if the company offers dividends, and most early stage companies are unlikely to offer dividends, preferring to invest any earnings into the company).

The type of dilution that hurts early-stage investors mostly occurs when a company sells more shares in a "down round," meaning at a lower valuation than in earlier offerings. An example of how this might occur is as follows (numbers are for illustrative purposes only):

- In June 2014 Jane invests \$20,000 for shares that represent 2% of a company valued at \$1 million.
- In December, the company is doing very well and sells \$5 million in shares to venture capitalists on a valuation (before the new investment) of \$10 million. Jane now owns only 1.3% of the company but her stake is worth \$200,000.
- In June 2015 the company has run into serious problems and in order to stay afloat it raises \$1 million at a valuation of only \$2 million (the "down round"). Jane now owns only 0.89% of the company and her stake is worth only \$26,660.

This type of dilution might also happen upon conversion of convertible notes into shares. Typically, the terms of convertible notes issued by early-stage companies provide that in the event of another round of financing, the holders of the convertible notes get to convert their notes into equity at a "discount" to the price paid by the new investors, i.e., they get more shares than the new investors would for the same price. Additionally, convertible notes may have a "price cap" on the conversion price, which effectively acts as a share price ceiling. Either way, the holders of the convertible notes get more shares for their money than new investors. In the event that the financing is a "down round" the holders of the convertible notes will dilute existing equity holders, and even more than the new investors do, because they get more shares for their money.

If you are making an investment expecting to own a certain percentage of the Company or expecting each share to hold a certain amount of value, it's important to realize how the value of those shares can decrease by actions taken by the Company. Dilution can make drastic changes to the value of each share, ownership percentage, voting control, and earnings per share.

Tax Matters

EACH PROSPECTIVE PURCHASER SHOULD CONSULT WITH HIS OWN TAX AND ERISA ADVISOR AS TO THE PARTICULAR CONSEQUENCES TO THE PURCHASER OF THE PURCHASE,

OWNERSHIP AND SALE OF THE PURCHASER'S SECURITIES, AS WELL AS POSSIBLE CHANGES IN THE TAX LAWS.

Restrictions on Transfer

Any Securities sold pursuant to Regulation CF being offered may not be transferred by any Purchaser of such Securities during the one-year holding period beginning when the Securities were issued, unless such Securities are transferred: 1) to the Company, 2) to an accredited investor, as defined by Rule 501(a) of Regulation D promulgated under the 1933 Act, 3) as part of an IPO or 4) to a member of the family of the Purchaser or the equivalent, to a trust controlled by the Purchaser, to a trust created for the benefit of a member of the family of the Purchaser or the equivalent, or in connection with the death or divorce of the Purchaser or other similar circumstances. "Member of the family" as used herein means a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother/father/daughter/son/sister/brother-in-law, and includes adoptive relationships. Remember that although you may legally be able to transfer the Securities, you may not be able to find another party willing to purchase them.

In addition to the foregoing restrictions, prior to making any transfer of the Securities or any Securities into which they are convertible, such transferring Purchaser must either make such transfer pursuant to an effective registration statement filed with the SEC or provide the Company with an opinion of counsel stating that a registration statement is not necessary to effect such transfer.

Other Material Terms

The Company does not have the right to repurchase the Securities. The Securities do not have a stated return or liquidation preference.

Related Person Transactions

From time to time the Company may engage in transactions with related persons. Related persons are defined as any manager, director, or officer of the Company; any person who is the beneficial owner of 10 percent or more of the Company's outstanding voting equity securities, calculated on the basis of voting power; any promoter of the Company; any immediate family member of any of the foregoing persons or an entity controlled by any such person or persons.

The Company has conducted the following transactions with related persons:

In October 2019, the Company entered into a transaction with a related party entity to which the Company had loaned \$100,000, whereby the Company acquired the assets of Mellow, Inc. ("Old Mellow"), an entity that originally developed and sold the sous vide machine which is the basis for Mellow's future operation. The related party entity received the assets of Old Mellow by successfully bidding in an auction held on October 4, 2019. The acquired assets consisted of inventory, intellectual property technology, brand assets and all data owed, held, used or developed by Old Mellow.

Through this transaction, the \$100,000 originally loaned to the related party entity and negligible interest thereon was considered relieved and the Company took legal possession of the assets described above. As part of the assumption of assets, the Company obtained a digital store that had a related loan originally provided by the vendor of the digital store software (Note 3). The balance assumed was \$8,939. As the book value of the inventory acquired was greater than the loan receivable relieved and the liability assumed, 100% of the value of the assets assumed were assigned to the inventory, resulting in inventory assumed of \$108,939.

In June 2019, the Company entered into a loan with a related party for \$87,500. The loan is due in 18 months and bears no interest. In addition, the Company was to issue 3150 shares of common stock. The Company valued the common stock at \$83.33 per share. The price was determined by using the price our founder used to sell a portion of their shares to a third party for. The Company then allocated the relative fair value of the debt and equity component and recorded a discount to the note payable of \$65,625. The discount is being amortized over the life of the note. During the year ended December 31, 2019, the company amortized \$21,875 of the discount. The balance of the loan as of December 31, 2019 is \$43,750. The remaining amortization will be recognized in 2020 through the date of loan maturity.

Conflicts of Interest

The Company has engaged in the following transactions or relationships, which may give rise to a conflict of interest with the Company, its operations and its security holders: None.

Bad Actor Disclosure

None.

SEEDINVEST INVESTMENT PROCESS

Making an Investment in the Company

How does investing work?

When you complete your investment on SeedInvest, your money will be transferred to an escrow account where an independent escrow agent will watch over your investment until it is accepted by the Company. Once the Company accepts your investment, and certain regulatory procedures are completed, your money will be transferred from the escrow account to the Company in exchange for your Crowd Note. At that point, you will be an investor in the Company.

SeedInvest Regulation CF rules regarding the investment process:

- Investors may cancel an investment commitment until 48 hours prior to the deadline identified in the issuer's Offering materials;
- The intermediary will notify investors when the target offering amount has been met;
- The Company is making concurrent offerings under both Regulation CF and Regulation D and unless the Company raises at least the target amount under the Regulation CF Offering and the closing amount under both offerings, it will not close this Offering;
- If an issuer reaches a target offering amount and the closing amount prior to the deadline identified in its offering materials, it may close the Offering early if it provides notice about the new Offering deadline at least five business days prior to such new Offering deadline;
- If there is a material change and an investor does not reconfirm his or her investment commitment, the investor's investment commitment will be cancelled and the committed funds will be returned;
- If an issuer does not reach both the target offering amount and the closing offering amount prior to the deadline identified in its offering materials, no Securities will be sold in the Offering, investment commitments will be cancelled and committed funds will be returned; and
- If an investor does not cancel an investment commitment before the 48-hour period prior to the Offering deadline, the funds will be released to the issuer upon closing of the Offering and the investor will receive Securities in exchange for his or her investment.

What will I need to complete my investment?

To make an investment you will need the following information readily available:

1. Personal information such as your current address and phone number
2. Employment and employer information
3. Net worth and income information
4. Social Security Number or government-issued identification
5. ABA bank routing number and checking account number

What is the difference between preferred equity and a convertible note?

Preferred equity is usually issued to outside investors and carries rights and conditions that are different from that of common stock. For example, preferred equity may include rights that prevent or minimize the effects of dilution or grants special privileges in situations when the Company is sold.

A convertible note is a unique form of debt that converts into equity, usually in conjunction with a future financing round. The investor effectively loans money to the Company with the expectation that they will receive equity in the Company in the future at a discounted price per share when the Company raises its next round of financing. To learn more about startup investment types, check out "How to Choose a Startup Investment" in the SeedInvest Academy.

How much can I invest?

An investor is limited in the amount that he or she may invest in a Regulation Crowdfunding Offering during any 12-month period:

- If either the annual income or the net worth of the investor is less than \$107,000, the investor is limited to the greater of \$2,000 or 5% of the lesser of his or her annual income or net worth.

- If the annual income and net worth of the investor are both equal to or greater than \$107,000, the investor is limited to 10% of the lesser of his or her annual income or net worth, to a maximum of \$107,000. Separately, the Company has set a minimum investment amount.

How can I (or the Company) cancel my investment?

For Offerings made under Regulation Crowdfunding, you may cancel your investment at any time up to 48 hours before a closing occurs or an earlier date set by the Company. You will be sent a reminder notification approximately five days before the closing or set date giving you an opportunity to cancel your investment if you had not already done so. Once a closing occurs, and if you have not cancelled your investment, you will receive an email notifying you that your Securities have been issued. If you have already funded your investment, let SeedInvest know by emailing cancellations@seedinvest.com. Please include your name, the Company's name, the amount, the investment number, and the date you made your investment.

After My Investment

What is my ongoing relationship with the Company?

You are an investor in the Company, you do own securities after all! But more importantly, companies that have raised money via Regulation Crowdfunding must file information with the SEC and post it on their website on an annual basis. Receiving regular company updates is important to keep investors educated and informed about the progress of the Company and their investments. This annual report includes information similar to the Company's initial Form C filing and key information that a company will want to share with its investors to foster a dynamic and healthy relationship.

In certain circumstances a company may terminate its ongoing reporting requirements if:

- (1) the Company is required to file reports under Section 13(a) or Section 15(d) of the Exchange Act;
- (2) the Company has filed at least three annual reports pursuant to Regulation CF and has total assets that do not exceed \$10,000,000;
- (3) the Company has filed at least one annual report pursuant to Regulation CF and has fewer than 300 holders of record;
- (4) the Company or another party repurchases all of the Securities issued in reliance on Section 4(a)(6) of the 1933 Act, including any payment in full of debt securities or any complete redemption of redeemable securities; or
- (5) the Company liquidates or dissolves its business in accordance with state law.

However, regardless of whether a company has terminated its ongoing reporting requirements per SEC rules, SeedInvest works with all companies on its platform to ensure that investors are provided quarterly updates. These quarterly reports will include information such as: (i) quarterly net sales, (ii) quarterly change in cash and cash on hand, (iii) material updates on the business, (iv) fundraising updates (any plans for next round, current round status, etc.), and (v) any notable press and news.

How do I keep track of this investment?

You can return to SeedInvest at any time to view your portfolio of investment and obtain a summary statement. In addition to monthly account statements, you may also receive periodic updates from the Company about its business.

Can I get rid of my Securities after buying them?

Securities purchased through a Regulation Crowdfunding Offering are not freely transferable for one year after the date of purchase, except in the case where they are transferred:

1. To the Company that sold the Securities
2. To an accredited investor
3. As part of an Offering registered with the SEC (such as an IPO)
4. To a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser, or in connection with the death or divorce of the purchaser

Regardless, after the one year holding period has expired, you should not plan on being able to readily transfer and/or sell your security. Currently, there is no market or liquidity for these Securities and the Company does not have any plans to list these Securities on an exchange or other secondary market. At some point the Company may choose to do so, but until then you should plan to hold your investment for a significant period of time before a "liquidation event" occurs.

SIGNATURE

Pursuant to the requirements of Sections 4(a)(6) and 4A of the Securities Act of 1933 and Regulation Crowdfunding (§ 227.100 et seq.), the issuer certifies that it has reasonable grounds to believe that it meets all of the requirements for filing on Form C and has duly caused this Form to be signed on its behalf by the duly authorized undersigned.
